**On the issue of this so-called 'Stimulus' money!!**

As many GOP Senators have said, the people are getting the leftovers after the cities and states, which allowed Black Lives Matter, and Antifa to basically destroy property, and businesses, get money to repair the damage.

Also, let's not forget, many liberal run cities and states are at, or near bankruptcy because of their liberal policies, and fiscal mismanagement. So, they are getting money to make them solvent again.

Money to fund abortions, sex-change operations, the further dumbing down of America, through public education, climate change and the like.

Those are the priorities of this president, and his party!!!

**The people, especially the black community, are at the bottom of the list!!**

Another thing you need to know is that 'stimulus' is a play on words that essentially gives the impression that something fresh, and new, will happen after '**new money**' is introduced in to the system.

The problem is, there will not be any new money injected in to the system.

What is actually happening is, the money is being recycled from one group of entities, to another. It's the old theory of 'robbing Peter' or in this case, the taxpayer, to pay Paul [the government]. And what the government is going to do, is pay itself to create programs to assist those that they stole the money from.

A real stimulus is like, you have for example \$1000.00 coming in every week.

With that money, you can just barely make ends meet. You can't really afford any extras that you might need, or like to have because there just isn't enough money. So you settle in to a regular routine of accepting your life as it is.

A stimulus, is something that is added to your weekly income like a raise, winning a lottery or something where 'new money' is added to your income, so that you can better your living conditions.

What liberals are doing, is taking money from you, in taxes, then giving about 5 percent back, and calling that, a 'stimulus!!' So, out of your \$1000.00 a week, they take \$150.00, then turn around and give you back \$5.00, and they call that a 'stimulus!!'

This essentially what the Democrats are doing.

**When it comes to the subject of 'Reparations', there is a Big Problem.**

Blacks have already gotten more than enough than was supposedly needed!!

You have welfare, social security, affirmative action, medicare, and a lot more.

Besides that, with the black employment rate being as high as it is, and the wealth that flows through our community, any 'so-called reparations' would be funded in large part by those blacks that are taxpayers.

Most of those supporting it are doing so because it helps them stay in positions of power like politicians, community activists, entertainers and sports stars. They all benefit financially.

Then we have those that have screwed up their lives through actions that have rendered them incapable of being a productive member of society, because they either can't hold, or want to fine a job. They dropped out of school. Got involved in crime or some other things of their own choosing, and now they want to claim America owes them something.

America owes you nothing. If anyone wants to succeed, they need to get off of their behinds and get to work!!!

**Was there 'voter fraud' in the 2020 elections??**

Many, including myself are of the opinion that there was. Liberals, on the other hand say there is no proof, and we need to get on with the people's business.

I don't know about all the others, but I take issue with what the liberals are saying.

That's because there was fraud.

The problem is, you have the perpetrators of it, in charge of investigating themselves. It's like the fox, guarding the hen house. When is the last time you have ever seen Democrats, punish other Democrats for wrongdoing???

Never!!

Here are some prime examples.

Bill Clinton being caught turning the white house in to his own personal sex playground, and the Democrats defended him. Ted Kennedy caused the death of Mary Jo Koppeckney, and they defended him. The late Sen. Robert Byrd, a high office holder in the KKK at the time, who even used the n-word in an interview on TV, and they said nothing, How about Hillary Clinton, while Secretary of state, causing the deaths of 4 of our diplomats in Benghazi. Again, nothing.

Let a Republican spit on the street, and the Democrats will raise holy hell!!!

If you think Democrats are going to admit to wrongdoing, tell me, what drugs are you taking???. Even Stevie Wonder can see this problem!!
